WELCOME TO ARKAL AUTOMOTIVE SPAIN, S.L.U (AAS)

The Direction of **AAS** contained in this document its Quality Policy, Environment, Safety and Health within the framework of the manufacture of plastic parts for the automotive industry, driven by the growing restlessness and need to preserve and care for our environment and working to meet the needs and expectations of our stakeholders.

In this context, the company agrees to consider the concept of continuous improvement in all present and future activities, working on the basis of a management system and environmental quality, Safety and Health by international standards ISO9001, IATF16949, ISO 14001, ISO 45001, Customers CSR, regulations and Ethics are audited by external company annually.

To develop this Policy Directorate **AAS** makes the following commitments:

- COMPLIANCE with legislation, applicable regulations, and other requirements applicable to us
- WISH TO SATISFY OUR CLIENTS
 - Quality, Price, Time. Our goal is the "zero defects" Standard increasingly high.
 - Satisfied customers secure our future. To ensure the continued satisfaction of our customers and other stakeholders
- SUCCESS THROUGH INNOVATION AND QUALITY
 - What good is it useful for our customers.
 - Not displease the customer.
- AREA COMMUNITY
 - Team with a common goal.
 - Delegation of responsibilities.
 - Each worker is supplier and customer at a time.
 - Involved in the Quality System and Environment, Safety and Health
- SEARCH CONTINUES IMPROVEMENT
 - Open collaboration with stakeholders: customers, suppliers, Arkal group, collaborators ...
 - Friendly and open cooperation with those who share our philosophy.
 - Productivity
- COMMITMENT SAFETY AND HEALTH AT WORK
 - Commitment to provide safe and healthy working conditions for prevention of work related injuries and deterioration of health, including the commitment to eliminate hazards and reduce risks for Health and Safety in place.
 - Commitment to query and participation of workers directly and / or through the workers' representatives
- ENVIRONMENTAL PROTECTION, INCLUDING POLLUTION PREVENTION
 - Process and product that do not harm the environment.
 - Careful handling of resources.
 - Order and Cleaning of resources.
 - Recycling and reducing materials whenever possible
 - Reducing potential risks to the environment and workers
- QUALITY ASSURANCE, ENVIRONMENT AND SAFETY AND HEALTH
 - Guided by the management system as a tool for prevention
 - Achieve defined goals.

For evidence such commitments, the Policy **AAS** be reviewed periodically to keep it current, communicated to all employees and made available to interested parties.
